

Hello,

My name is Ryan, I'm a Canadian UI/UX designer with a passion for user behavior. My strengths are responsive web design, typography and coding (HTML5, CSS3, jQuery). I design based on what users do, not what they say they'll do. I feel most alive when I'm creating, working as a UX designer has been an incredible experience.

**Websites I've had a primary role in:**

- Portfolio <http://boompah.com>
- Recent Proposal: <http://boompah.com/twiddy>
- <http://edisonnation.com/> - UI/UX Design and coding: Home, About, Successes, Submit An Idea, Forums, Blog (Wordpress), Insiders, Help, Signup, Login - Ruby on Rails app
- <http://hollywoodpq.com/> - Logo Design + Web Design
- <http://diamond.com/> - Design and front end coding (Wordpress)
- <http://fellerath.com/> - Branding and front end coding
- <http://instagram.com/boompah/> - Personal graphic design
- <http://www.cineflix.com/> - Web Design
- Additional recent screenshots:

Good UI/UX design translates into good business and I'd love to help your company grow.

Please note that I'm a remote worker however, I am open to on-site travel. Relocation is not in the cards for me at this point, unfortunately.

Please let me know if you'd like to further discuss the opportunity of working together,

Thanks!
